TriMark's e-ASK RF Keyless Entry Systems

electronic Access & Security Keyless entry

TriMarkCorporation

TriMark's e-ASK keyless entry systems adds further functionality, convenience, productivity and security to your Access Door System. Your choice of several systems and components can provide 'state of the art' automotive style remote keyless entry or basic lock/unlock. Additional functionality includes the control of compartment doors and hoods, windows, ignition, lighting, pneumatics, hydraulics, horns, and sirens plus other security systems.

500-1000/1050 e-*ASK* RF and Keypad Sealed and Unsealed Systems

TriMark's mid-level e-ASK system includes a user-friendly keypad to the RF system which offers increased security, convenience and functionality for the ultimate in keyless entry. The keypad provides visual, audible and touch feedback and can be mounted either horizontally or vertically. Available with either a sealed or unsealed controller.

500-1100 e-*FOB* System (Unsealed, Discrete)

TriMark's entry level e-ASKRF System offers increased security, convenience and functionality in a cost-effective, simple and integrated keyless entry FOB system.

530-0100 e-FOB Transmitter

TriMark's RF Systems offers several FOB options:

- 4-button standard and cargo fob, 2-button fob and wall mount
- Customized graphics possible (buttons and logos)

We invite you to check us out and see why TriMark is the leading global door solution provider offering Global **Reach**, Global **Support** and Global **Supply** of access door systems.

TriMark. 52 Years 1971 - 2023

The TriMark Advantage

- Advanced technology expertise
- Rugged and reliable systems for on and off-road applications
- Full-service supplier (integration with mechanical systems)
- Excellent design and applications support
- Integrated systems approach
- Compatible with CAN SAE J1939, RV-C and other multiplexing protocols

540-0100 e-*PAD* Keypad

This cost-effective, simple, and integrated system offers increased security, convenience and functionality with reduced system installation complexity and lower installation costs for demanding users. Offering visual, audible and touch feedback, this user-friendly keypad can be mounted horizontally or vertically, and provide means to protect against vandalism and other tampering.

540-0200 Lighted Grab Handle with Keypad (e-GRAB)

TriMark's e-GRAB incorporates the e-ASK keypad into a stylish entry assist handle combination. Available in CAN, multi-plex or discrete communication, this product can also be integrated with various e-FOB systems for the ultimate in keyless entry.

Options

Options can include wiring harnesses for all connection points, extra relays, extra FOB's, custom graphics, rocker switches, door contacts, security horns, power lock actuators, mounting brackets and hardware, door latches and door handles. Custom functionality can be facilitated with software programming to include specific inputs and outputs as well as security system integration.
