

# Hinges

Standard to Custom

## TriMark Corporation

TriMark designs and manufactures standard and custom hinges for world leading companies in the agricultural, construction, transportation and specialty vehicle markets. Our experience and capabilities allow us to produce industrial hinges in plastic, die cast zinc, steel and stainless steel materials to suit light, medium and heavy duty applications. TriMark's products include leaf/butt, four bar and barrel hinges with features such as free-swinging, positioning/detent; lift-off, articulated travel and dampened functionality.

### 200-0100 Plastic Leaf Hinge

This glass reinforced nylon leaf style hinge is designed for flush compartment, access doors or hinged windows. It can be surface mounted with grommets and spacers included to facilitate mounting on 5 or 6mm thick glass.

### 200-0500 Hinge Assembly

This diecast zinc leaf hinge can be surface mounted or used with spacers to accommodate offsets.

### 200-0200 Cabinet Hinge

This is a concealed hinge that surface mounts for ease of installation and totally hidden applications. The concealed hinge action has a rotational axis outside of the physical door (up and out) and provides for flush doors when closed.

### 200-0800 Heavy Duty Butt Hinge

This Heavy-Duty Butt hinge is load rated to 800 lbs/set. Each hinge (2000 lbs/set) mounts with (6) M6 bolts and is provided in primer grey finish.

### 200-7100 Hinge Assembly

This aluminum hinge is designed for light duty vehicle applications on storage compartments or hinged windows.

We invite you to check us out and see why TriMark is the leading global door solution provider offering **Global Reach**, **Global Support** and **Global Supply** of access door systems.

## Custom Hinges

---

---

If a standard “off the shelf” product will not suffice, we can custom-design and manufacture hinges to your exact specifications and requirements.

## Custom 4-Bar Hinges

TriMark’s four-bar hinges provide concealed mounting for “out of sight” installation with durable performance. The four-bar hinge also provides articulated travel for specialized door travels when a standard hinge would cause interference between the door and surround.

## Custom Hinges

Shown are just a few samples of Custom Hinges that we produce. Custom hinges can be manufactured to a customer’s drawing to the exact specifications or a TriMark engineered design for a unique and specific hinge that performs to your requirements.
