

Pull Handle Product Family

TriMark Corporation

Modular Product offering provides the OEM to offer customers different levels of Features/Benefits in a Pull Handle Family.

- ◆ Good/Better/Best
- ◆ All products have the same mounting pattern - provides standardization across OEM platforms and allows for upgrades and model differentiation

020-0870 e-Lock Pull Handle with Capacitive Sense (PKE)

- ◆ Similar to 020-0850, adds Integrated Capacitive Sense and Passive Keyless Entry
 - ◆ Provides 'Wake' functionality for system
 - ◆ Exterior antenna is energized to initiate sequence
 - ◆ If FOB serial # matches, handle unlocks
 - ◆ Powerlock motor integrated into handle

020-0860 e-Lock Pull Handle with Keypad

- ◆ Similar to 020-0850, adds Integrated Keypad into handle portion
- ◆ Keypad provides visual feedback and is backlit for use at night
- ◆ SAE J1939 compatible for CAN messaging and communications

020-0850 e-Lock Pull Handle

- ◆ Provides automotive function and convenience to your cabs and enclosures by adding power locking self-contained motor - provides remote locking
- ◆ Allows power locking/unlocking via a switch, remote RF Fob or keypad
- ◆ PTC overload to protect motor against excessive heating
- ◆ Provides mechanical lock override with key in case of power disruption

We invite you to check us out and see why TriMark is the leading global door solution provider offering **Global Reach**, **Global Support** and **Global Supply** of access door systems.
