

040-0700 Lift and Latch Handle

This new product is designed to operate on back hoe loader and excavator vertical opening windows for full unobstructed vision. Latching is provided in the 'fully open' or overhead position, and in the 'closed' front latched position. This integrated latching and handle solution features full gloved hand clearance, one-touch action release and slam action retention providing safe and secure operation.

DESIGNED FOR:

- Medium to heavy-duty on-highway vehicle vertical windows where movement up and over is desired

TriMark Corporation

FEATURES/BENEFITS:

- Easy to operate (ergonomics), operator handle is gas injected which gives automotive feel and appearance
- 12mm (.47") plunger travel provides secure engagement into window tracks
- Right and left hand configuration is sold as a pair
- Manufactured in injection molded engineered plastic to save weight
- Lower cost compared to zinc die cast versions

INSTALLATION:

- Push button handle with 195mm (7.68") mounting pattern — retrofits with some European up and over handles
- Installs easily with (4) M6 mounting fasteners (not included)

MATERIAL:

- Handle/Plunger: Glass reinforced nylon

Individual part dimensions are for reference only. Refer to individual part drawings for complete dimensions, specifications, and installation procedures. Engineering assistance and application drawings are available.
