TriMark. Interactive. Product. Selector

AVAILABLE:

- Blunt ends, bullet connectors or spade connectors
- With or without an overload protected motor for excessive heating due to extreme usage such as rapid, frequent operations or sustained activation, which can cause premature motor failing or motor seizing.
- Possible customization available to include special connectors, custom wire length and kitting options. Please contact TriMark for more information

INSTALLATION:

- TriMark power actuators are easy to install either by integrating or mounting directly into available TriMark latches or handles
- 12 volt supply (9-15 VDC)
- Each actuator can draw up to 4A of current - proper size fusing of circuitry is required

Individual part dimensions are for reference only. Refer to individual part drawings for complete dimensions, specifications, and installation procedures. Engineering assistance and application drawings are available.
