Moving forward

évoluer / Mit Ihnen in die Zukunft / innovare insieme / avanzamos junto a usted

TriMark is one of the world's leading innovators, designers and manufacturers of heavy duty vehicle hardware. We boast a comprehensive range of latches, handles, striker bolts, linkages and related components of truly exceptional quality - our products not only set the standards for design and value, they have been proven in the field time and time again.

Established for over 30 years in Iowa, USA, we have built a global reputation for providing both standard and custom designs that offer our customers precisely the system solutions they need.

From our facility in Leicestershire, UK, TriMark continues to build on this matchless expertise in Europe. In addition to our vehicle hardware range, we offer a complete plastic injection moulding service, for off-highway customers.

This brochure will give you just a taste of the outstanding TriMark range.

For a fully comprehensive, interactive, online catalogue that includes our parts range from European distributors, visit our website today.

 TriMark figure parmi les leaders mondiaux en matière d'innovation, de conception et de fabrication de matériel renforcé pour l'industrie automobile. Nous offrons une gamme complète de serrures, poignées, gâches, tringleries et composants auxiliaires de qualité réellement exceptionnelle. Nos produits ne se contentent pas de définir la norme en matière de conception et de valeur, ils ont maintes fois fait leurs preuves sur le terrain.

Fondée il y a plus de 30 ans dans l'Iowa, aux Etats-Unis, notre société a acquis une réputation mondiale pour ses produits standard et sur mesure qui offrent à nos clients les solutions précises requises pour leur système.

Depuis nos toutes nouvelles installations dans le Leicestershire, au Royaume-Uni, TriMark poursuit son expansion basée sur son expertise sans rivale en Europe. En plus de notre gamme de matériel pour l'automobile, nous offrons un service complet de moulage de plastique par injection pour nos clients spécialisés dans les véhicules tout-terrain.

Cette brochure vous donnera un avant-goût de ce que l'exceptionnelle gamme TriMark peut vous offrir.

Pour consulter notre catalogue complet et interactif en ligne, où vous retrouverez notre gamme de pièces pour les distributeurs européens, visitez notre site web dès aujourd'hui.

 TriMark è una delle migliori e più innovative aziende al mondo per la progettazione e fabbricazione di articoli in metallo per veicoli destinati a servizi pesanti. Tra i nostri prodotti figura un'ampia gamma di serrature, maniglie, chiavistelli, sistemi di collegamento e relativi componenti - tutti di qualità eccezionale. Questi prodotti, sperimentati sul campo moltissime volte, costituiscono un punto di riferimento per il loro valore intrinseco ed il modo in cui vengono progettati.

La nostra sede principale si trova da oltre 30 anni in Iowa (USA). Abbiamo costruito nel tempo una reputazione a livello globale, basata sulla capacità di fornire prodotti di serie e personalizzati, perfettamente adatti alle specifiche esigenze dei clienti grazie a soluzioni complete.

Con l'impianto costruito recentemente nel Leicestershire (UK), TriMark porta anche in Europa la sua straordinaria competenza. Oltre alla gamma di articoli in metallo per veicoli, offriamo un servizio completo di stampaggio ad iniezione di materie plastiche per veicoli destinati ad usi fuoristrada.

Questo opuscolo vi darà un'idea della gamma dei prodotti TriMark.

Per prendere visione del catalogo interattivo completo in linea, con tutte le parti disponibili presso i distributori europei, visitate il sito Web oggi stesso.

 TriMark ist einer der weltweit führenden Innovatoren, Designer und Hersteller von Eisenwaren für Lastkraftwagen. Wir bieten ein umfassendes Angebot an Schlosszungen, Griffen, Verschlussbolzen, Verbindungsteilen und ähnlichem in wirklich ausgezeichneter Qualität - unsere Produkte setzen nicht nur neue Standards bzgl. Design und Nutzen, sie haben sich auch immer wieder im täglichen Einsatz bewährt.

Das Unternehmen wurde vor über 30 Jahren in Iowa, USA, gegründet. Im Verlaufe der Jahre haben wir uns weltweit einen Ruf nicht nur für Standarddesigns, sondern auch für kundenspezifische Lösungen erworben. Wir können unseren Kunden daher genau die Systemlösungen bieten, nach denen sie suchen.

TriMark baut nun auch in Europa in seinem neuen Werk in Leicestershire, UK, auf seiner einzigartigen Erfahrung auf. Neben Eisenwaren für den Automobilmarkt bieten wir hier auch einen vollständigen Plastik-Spritzgusservice an.

Diese Broschüre gibt Ihnen eine Vorstellung über das außerordentliche Angebot von TriMark.

Einen vollständigen, interaktiven Katalog, der alle von unseren europäischen Vertriebshändlern angebotenen Teile enthält, finden Sie auf unserer Webseite.

 TriMark es uno de los líderes mundiales en la innovación, el diseño y la fabricación de quincallería para vehículos pesados de automoción. Disponemos de una gama completa de cerrojos, asas, pestillos, articulaciones y componentes afines de calidad realmente excepcional. Nuestros productos no solamente establecen los baremos de diseño y funcionalidad, sino que también han demostrado su valor en innumerables aplicaciones.

Fundada hace ya más de 30 años en Iowa (EE.UU.), hemos establecido una reputación global como suministradores de diseños tanto estándar como especiales que ofrecen al cliente precisamente las soluciones que necesitan.

Desde nuestra nueva factoría situada en Leicestershire (Gran Bretaña), TriMark continúa una expansión sin igual en Europa. Además de nuestra gama de quincallería para vehículos, ofrecemos un servicio completo de inyección de piezas de plástico para vehículos todo terreno.

Este folleto solo representa una muestra de la excepcional gama TriMark.

Para acceso interactivo en línea al catálogo completo de nuestra gama de productos disponibles a través de distribuidores europeos, visite hoy nuestras páginas Web.

Keith Dolbear

Managing Director, TriMark Europe Ltd.

KEY ONE PLUS

système Key One Plus / 1 Schlüssel Plus System / sistema Key One Plus / sistema Key One Plus

TriMark's patented single key system. 'Key One Plus' is designed to give a high level of security utilising a common key cylinder across a wide range of system components.

The reversible key is offered with single and multiple codes. Where multiple codes are used, a master key is available for workshop and field servicing. Customising or branding of the key can be offered by over moulding the key head to your design.

Key cylinders can be supplied pre-installed in the keyed components by TriMark or fitted by the vehicle manufacturer at any stage on the production line.

This means that inventory can be reduced by stocking components without key cylinders which can be 'coded' at a later stage.

The key cylinders can even be changed at the dealer allowing end users to specify a unique key code.

 Le système à clé unique de TriMark. « Key One Plus » utilise un barillet de serrure commun pour une grande variété de pièces.

 TriMarks einzigartiges Schlüsselsystem. „1 Schlüssel Plus“ verwendet einen einzigen Schlüssel und einen einheitlichen Zylinder für diverse Bauteile.

 Sistema di serratura a chiave TriMark unico nel suo genere. Il sistema Key One Plus utilizza una normale chiave ed un normale blocchetto per serratura su una vasta gamma di prodotti.

 El exclusivo sistema de llave "Key One Plus" de TriMark, utiliza una llave y un bombín comunes para una amplia gama de componentes.

FULL INFORMATION ON OUR WEBSITE

040-0600 series

The 040-0600 TriMount Push Button Handle was specifically designed for off-highway vehicle applications which require a surface mounted exterior push button handle with 120mm or 163mm mounting pattern. It is retrofitable with most European push button handles and offers robust construction, ergonomic function and styling for a very cost effective price. Also available are glass fixing bezels and steel mounting gaskets.

Poignée à bouton-poussoir avec 3 options de montage TriMount / TriMount-Druckknopfgriff / Maniglia a pulsante TriMount / Picaporte TriMount con botón

040-0600 series

040-1400 series

Push button centre control. This push button can be activated directly in hood and compartment applications. Alternatively used with a bell crank to drive rods where latching is required.

Commande centrale à bouton-poussoir / Druckknopf-Mittelsteuerung / Comando centrale a pulsante / Botón pulsador con mando central

040-1400 series

020-0800 series

Surface mounted pull handle. This product can be used directly connected to a latch or by utilising a linkage, can provide remote operation. A gasket and compression limiters are available to enable mounting onto steel or glass.

Poignée montée en applique / Oberflächenmontierter Ziehgriff / Maniglia con nottolino montata esternamente / Tirador de montaje superficial

020-0800 series

010-0700 series

Light duty compartment latch. Available in locking and non-locking versions, the rotating handle drives a cam to secure the compartment.

Serrure de compartiment légère / Leichtes Klappen-Fallenschloss / Serratura compartimento per applicazioni leggere / Cerrojo simple para compartimento

010-0700 series

010-0600 series

Flush mounted pop-up T handle. Rotating handle recommended for use on toolboxes, tonneau or topper covers, compartments and panels.

Poignée en T escamotable encastrée / Einlass-Kreuzziehgriff / Maniglia ribaltabile incassata a T / Picaporte en "T" retráctil empotrado

010-0600 series

We offer a fully comprehensive choice of paddle handles on our website, which has a complete online catalogue.

050-0100 series

Two rotor latch. Our toughest and most popular latch. This versatile latch is designed for medium to heavy-duty applications for on or off-highway entrance doors, compartments and access panels. FMVSS 206 compliant.

Serrure rotative double / Doppel-Drehfallschloss / Serratura a rotazione doppia / Cerrojo de dos rotores

050-0100 series

050-0200 series

Slimline rotary latch. This compact single rotor latch is designed for light to medium applications for on or off-highway entrance doors, compartments and access panels. FMVSS 206 compliant.

Serrure rotative compacte / Schlankes Drehfallschloss / Serratura a rotazione compatta / Cerrojo rotatorio plano

050-0200 series

050-0400 series

Floating striker single rotor latch. This single rotor latch is designed for medium to heavy duty applications where vibration and or heavy door weights may cause misalignment. Used for on or off-highway entrance doors, compartments and access panels. FMVSS 206 compliant.

Serrure rotative simple à gâche flottante / Eindrehschloss mit Gleithammer / Serratura a rotazione singola con leva di azionamento allineata / Cerrojo de un rotor con percutor flotante

050-0400 series

050-0500 series

050-0500 series

Single rotor mini-latch. Designed for small compartment and access doors. It features a single or 2 position rotor.

Mini-serrure rotative simple / Mini-Eindrehschloss / Mini-serratura a rotazione singola / Minicerrojo de rotor sencillo

050-0500 series

050-0600 series

This single rotor compartment latch is intended for hoods, storage and compartment doors for on and off-road vehicles.

Serrure rotative simple de compartiment / Eindrehschloss für Klappen / Serratura compartimento a rotazione singola / Cerrojo de rotor sencillo para compartimiento

050-0600 series

050-0700 series

12 mm single rotor latch. This latch is available in a number of configurations. Finished in trivalent black.

Serrure rotative simple 12 mm / 12-mm-Eindrehschloss / Serratura a rotazione singola 12mm / Cerrojo de rotor sencillo de 12 mm

070-0000 series

070-0000 series

Striker bolt. Available in various configurations.

Pêne / Schlagbolzen / Chiavistello / Perno del percutor

TriMark has expanded its door systems expertise by adding electrical/electronic controls to its product offering.

The modular components can be combined in various permutations to provide simple or complex systems. This offers electrical input/output signals which can be utilised to provide locking, security, comfort and indication features.

TriMark's radio frequency products comply with European and North American regulations.

-  TriMark a étendu son expertise en systèmes de portes en ajoutant des commandes électriques/électroniques à sa proposition de produits.
-  TriMark hat sein Know-how im Bereich Türschließsysteme weiter ausgebaut und bietet nun elektrische/elektronische Steuerungen für seine Produkte an.
-  TriMark ha ampliato la specializzazione nel campo dei sistemi per portiere con l'aggiunta ai propri prodotti di comandi elettrici/elettronici.
-  TriMark ha ampliado su experiencia en sistemas de puerta mediante el añadido de controles eléctricos y electrónicos a su oferta de productos.

610-0100 series

Ignition Switch. TriMark offers a range of heavy duty ignition switches for off-highway applications. Bespoke switches and branded keys can be provided to your design.

Commutateur d'allumage / Zündschloss / Interruttore d'accensione / Interruptor de arranque

610-0100 series

130-0100 series

Dual release door hold-open. Designed for light to medium duty doors or windows. The rotating knob design allows for the door to be released from either the inside or outside of the cab. The all plastic construction means that lubrication is not required.

Entrebâilleur de porte à double déclencheur / Türfeststeller mit doppelter Auslösung / Catena a doppio scatto / Sujetador de puerta abierta con desenganche dual

130-0100 series

130-0110 series

Single release door hold-open. Designed for light to medium duty doors or windows. Using the same simple rotating knob design as the 130-0100, the fixed receiver on this product provides a lower cost solution where an inside release is not required.

Entrebâilleur de porte à double déclencheur / Türfeststeller mit doppelter Auslösung / Catena a doppio scatto / Sujetador de puerta abierta con desenganche dual

130-0110 series

090-0520 series

Window hold-open. Designed for top and side hinged venting windows for on and off-highway vehicles. Its over center design secures the window at fully closed and fully open positions. Optional quick release pin.

Entrebâilleur de fenêtre / Fensterfeststeller / Catena per finestrino / Sujetador de ventana abierta

090-0520 series

030-1425 series

Inside bezel & release lever assembly. This redesigned product functions as a remote inside release. Features an optional built-in lock lever and improved zinc die cast bezel.

Ensemble levier de déverrouillage intérieur / Baugruppe aus Innenblende- und Auslösehebel / Gruppo cornice interna e leva di sblocco / Conjunto de bisel y palanca de desenganche interno

030-1425 series

020-0900 series

Remote inside squeeze release. Designed for off-highway vehicle applications where a remote release is required. Easily incorporated into round tubing to provide assistance with door opening and closing.

Dispositif de déverrouillage intérieur à distance / Fern-Innenauslösung / Sblocco interno a distanza / Desenganche remoto por compresión interna

020-0900 series

TriMark provides a custom injection mould service from concept through to production.

Our production plant offers a state of the art efficient injection moulding facility which operates to TS16949.

TriMark specialists can advise how to optimise tool and component specification, and assist with material selection.

Best value sourcing ensures TriMark is able to offer high quality tooling at low prices, with short lead times.

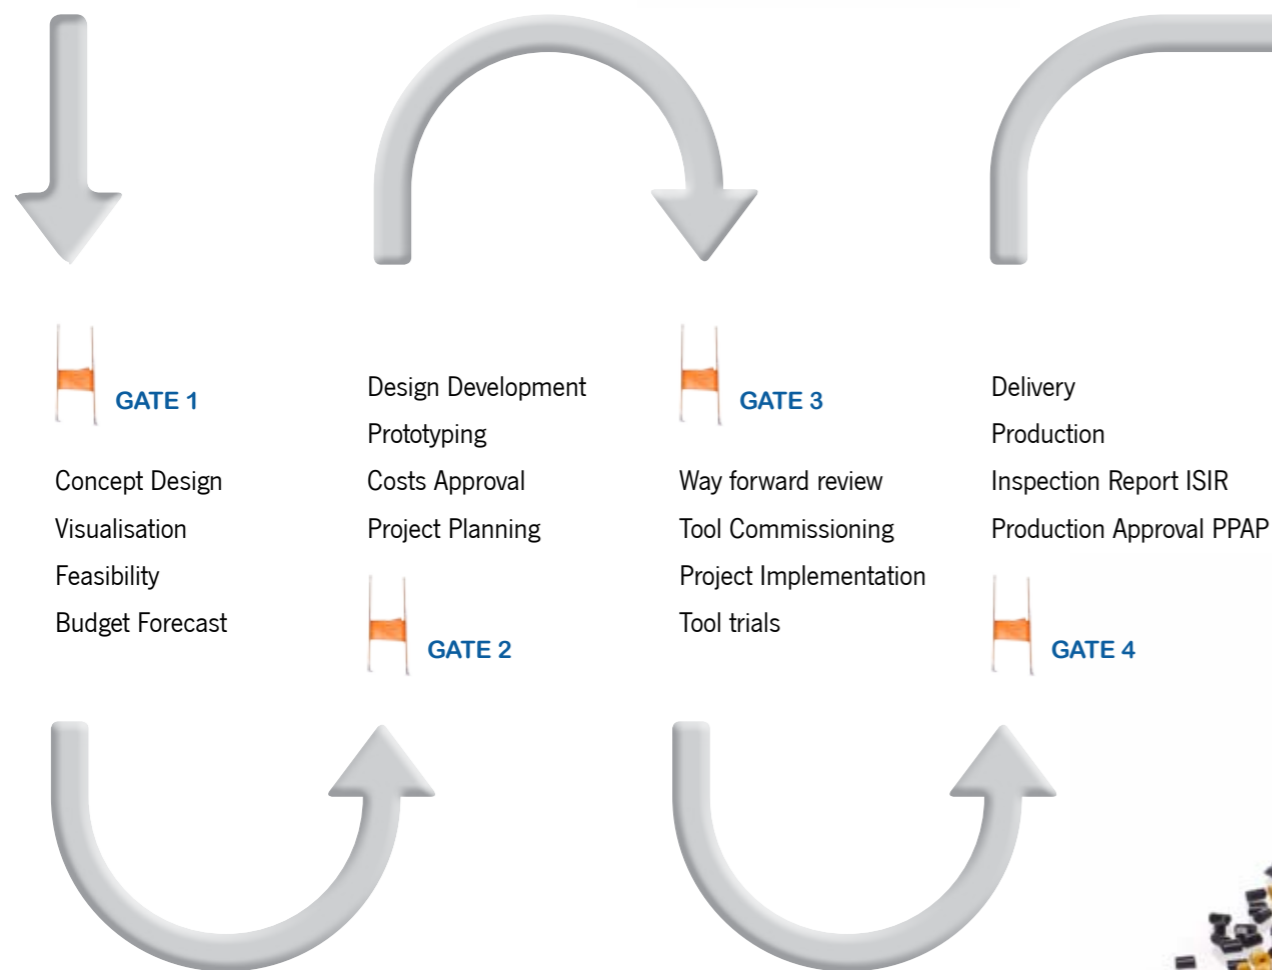

Gate reviews and progress reports provide feedback at all stages in the evolution of your product.

 TriMark offre un service de moulage par injection sur mesure du concept à la production.

 TriMark bietet einen individuellen Spritzguss-Service vom ersten Konzept bis zur Produktion.

 TriMark offre un servizio di stampaggio ad iniezione per prodotti personalizzati in grado di soddisfare le esigenze del cliente dalla progettazione alla produzione.

 TriMark brinda un servicio de inyección de moldes a la medida, desde el concepto hasta la producción.

“ Utilising our global resources we can offer lower cost injection mould tools with shorter lead times. ”

Now part of the *TriMark* group of companies West Alloy Ltd are designers and manufacturers of industrial and leisure vehicle hardware.

A market leader since the early 1950s West Alloy continues to produce a high quality range of zinc die cast and thermoplastics products including locks, latches, hinges, handles, window stays and associated fittings.

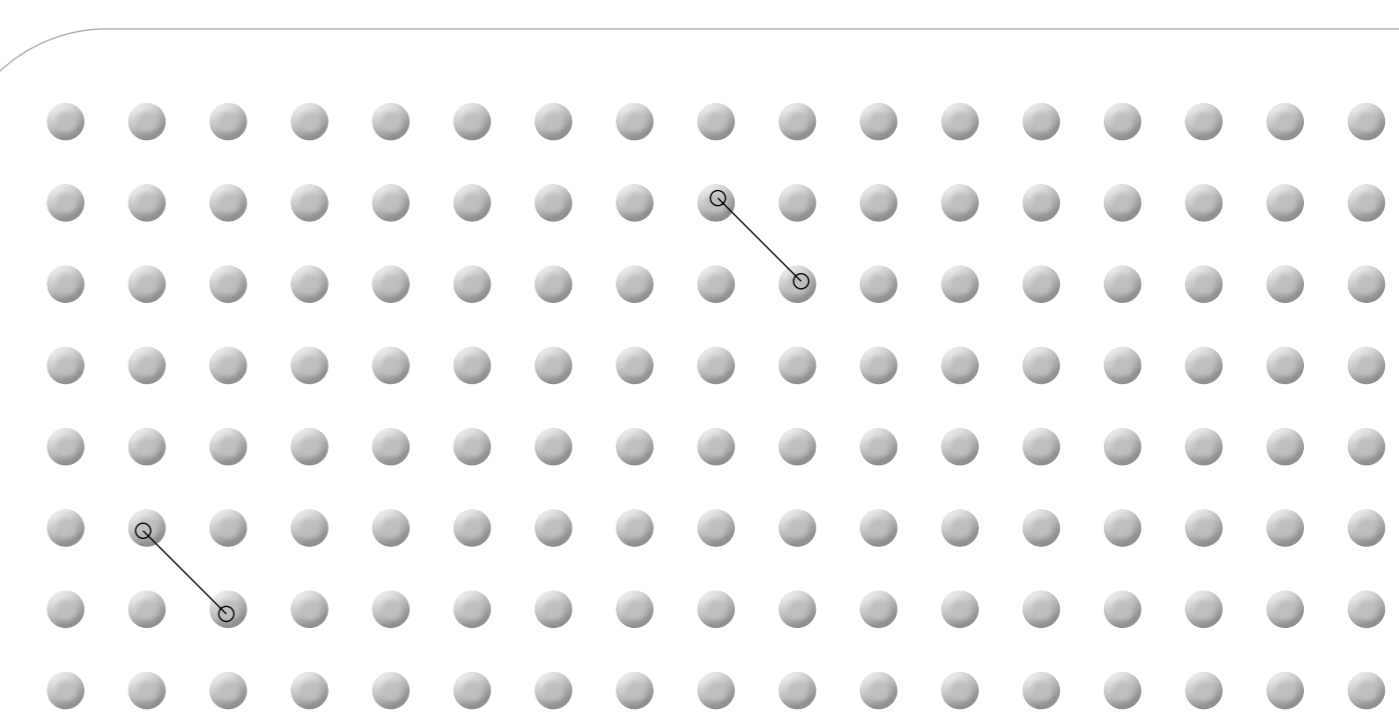

Part of *TriMark's* investment in West Alloy includes a new purpose built facility which can house the manufacturing operations under one roof.

Furthermore *TriMark* is committed to product development to ensure continuous improvements to the existing range which will bring new innovation and new solutions to vehicle manufacturers.

-  West Alloy Ltd, qui fait maintenant partie du groupe de sociétés *TriMark*, conçoit et fabrique des accessoires de quincaillerie pour véhicules industriels et de loisirs.
-  Die mittlerweile zur *TriMark*-Unternehmens-gruppe gehörende West Alloy Ltd. entwirft und konstruiert Komponenten für Industrie-und Freizeitfahrzeuge.
-  Oggi parte del gruppo *TriMark*, West Alloy Ltd è un'azienda che si occupa della progettazione e produzione di accessori per veicoli industriali e per il tempo libero.
-  Ahora como integrante del grupo de empresas *TriMark*, West Alloy Ltd. se dedica al diseño y la fabricación de componentes para vehículos industriales y de ocio.
