Visit TriMark at bauma, April 8-14

<p><i>Access to Excellence</i> DOOR SYSTEMS</p> <p>DESIGNED FOR YOU BUILT FOR YOU SECURED FOR YOU</p>	 APRIL 8-14, 2019, MUNICH	<p>April 8-14, 2019 Munich, Germany Hall / Booth A5.511</p>	 GLOBAL REACH GLOBAL SUPPORT GLOBAL SUPPLY
---	--	---	--

TriMark is exhibiting at bauma April 8 – 14 in Munich. We would like to invite you to **Hall A5 Stand 511** to see why TriMark is the leading global door solution provider offering Global **Reach**, Global **Support** and Global **Supply** of access door systems with products that are **Designed** for you, **Built** for you and **Secured** for you.

Exhibits will include several interactive demonstrations of TriMark's mechanical and mechatronic products access solutions. We are excited to show our latest electronic keyless entry, keyless start and immobilization system 500-1300, we are also showcasing our latest New Suite of Access Hardware named TouchOne, have on-display six popular access systems that range from simple compartment solutions up to several full personnel door solutions and are showcasing our latest Modular Pull Handle Family.

With an anticipated crowd of over 600,000 participants and 4,000 exhibitors from over 50 countries, this show is a must see. If you would like to see a full demonstration of TriMark products or would like to discuss your specific applications, please contact Richard Footer, European Sales Manager at sales@trimarkeu.com to set-up an appointment. We hope to see you there.

More On What You'll See from TriMark at bauma

Featuring Passive Keyless Entry (PKE), this 'State of the Art' system

offers optional vehicle mobilization/immobilization and keyless push button start. This is the same electronics that are featured on higher-end automobiles and is now available for integration on your equipment.

Our latest New Suite of Access Hardware named TouchOne utilize shared styling cues to infuse your cab and enclosures with a contemporary look and feel. The aesthetic design elements have been specifically developed to provide customers with a very comfortable and tactile feel for the main door and window touch points. These multi-family access product selections include a Push Button or Pull Handle, Interior Squeeze Release and a choice of either a Rotating Rear Window Handle and an Over-Center Window Stay.

Designing and implementing a full door system solution requires a wide-range of high-quality products working together to form a rugged, reliable system. We have on-display six popular access systems that range from simple compartment solutions up to several full personnel door solutions that set the standard in excellence, design and value in the field.

Another new concept on-display is TriMark's Modular Pull Handle Family that offers the OEM different levels of features/benefits ranging from the most basic mechanical function all the way up to an e-Locking capacitive sense version for passive keyless entry. Providing the same mounting and similar space claims, this family of six products provides for standardization across OEM platforms,

good/better/best functionality and allows for product differentiation and upgrades.
