Edition 27 April 2025

TriMark Europe, United Kingdom - April 2025 — The countdown is on: In a few weeks, bauma, the world's leading trade fair for construction machinery, mining machines, construction vehicles and equipment, will open in Munich. From April 7 to 13, more than 3,500 exhibitors from 57 countries will present their latest machines, technologies and innovations on a total of 614,000 square metres of exhibition space.

We would like to invite you to Hall A5 Stand 525 to see why TriMark is the leading global door solution provider offering **Global Reach**, **Global Support** and **Global Supply** of access door systems with products that are **Designed** for you, **Built** for you and **Secured** for you.

We are excited to show our latest mechatronic Push Button and Pull Handle families offering state sensing, power locking and capacitive sensing with the same mounting and space claim. We will be demonstrating our latest e-ASK PKE system, featuring passive keyless entry, keyless start and immobilization as well as our newest line of Powered Products that provide several solutions for hard to close doors due to high door seals, air compression or prebowed glass. Also, on display are six popular door access systems that range from compartment door products up to full personnel door solutions.

If you would like to see a full demonstration of TriMark products or would like to discuss your specific applications, please contact Richard Footer, European Sales Manager at sales@trimarkeu.com to set-up an appointment or visit TriMark's [exhibitor page](#) and respond to "Who is Who".

Hoping that we will see you there.

David Farrar
Managing Director
TriMark Europe Ltd

More on What You'll See from TriMark

TriMark's Integrated Access Systems

Designing and implementing a full door system solution requires a wide range of high-quality products working together to form a rugged, reliable system. We have on-display six popular access systems that range from compartment door products up to several full personnel door solutions that set the standard in excellence, design and value in the field.

TriMark's Modular Pull/Push Button Handle Product Families

Introducing TriMark's Modular Family of Pull and Push Button Handles. Providing the same mounting and space claim, OEM's can now offer different levels of features within a Pull or Push-Button Product. Ranging from a basic mechanical handle, up to a full e-LOCK Handle with capacitive sense, both families offer good/better/best functionality.

TriMark's Powered Products

TriMark's Powered Products adds further functionality and convenience to your access door and cabs. Several products are available that range from simple power lock actuators to complete powered door and window opening/ closing systems.

TriMark's e-ASK Keyless Entry Systems

TriMark's e-ASK keyless entry systems adds further functionality, convenience, productivity and security to your Access Door System. Your choice of several systems and components can provide 'state of the art' automotive style passive keyless entry and keyless push button start or basic lock/unlock. Additional functionality includes the control of compartment doors and hoods, windows, ignition, lighting, pneumatics, hydraulics, horns and sirens plus other security systems.
