

Keith Dolbear Retirement

TriMark Europe, United Kingdom — April 2026 — After 25 years of dedicated service, it is our pleasure to announce the retirement of Keith Dolbear, former Managing Director of TriMark Europe and a TriMark Board Member, effective March 31, 2026.

Keith's journey with TriMark Corporation began in December 2001 as Managing Director of TriMark Europe (TME). At that time, TME was a young subsidiary, operating as a sales, engineering, distribution, and logistics facility supporting the European construction equipment market across the UK and Europe.

In 2004, Keith spearheaded the move to a new facility in Bardon Hill, Coalville, United Kingdom. In 2007, TME acquired West Alloy Ltd., located in Sutton, UK, south of London. West Alloy was a market leader in the design and manufacture of locks, hinges, window stays, and associated fittings for some of the world's most recognized industrial and leisure vehicles.

As construction equipment manufacturing shifted globally, TriMark obtained its license in 2007 to manufacture and sell in China under the name TriMark (Xuzhou) Automotive Components Co. Ltd. in Xuzhou, China. Keith was instrumental in the market research, site selection, and start-up of this division and served as its Chairman. Global customers such as Caterpillar and John Deere, along with numerous domestic customers in China, were supported through this expansion.

In 2009, TME moved into a new facility in Coalville, UK, and in 2011, the West Alloy business was consolidated into the same location—bringing together sales, engineering, logistics, and distribution.

In 2017, Keith stepped away from day-to-day operations, culminating 15 years of dedicated leadership during which TME sales grew more than fourfold. David Farrar assumed the role, while Keith continued to support TriMark Corporation as a Board Member. In 2022, TriMark Europe celebrated its 25th anniversary and subsequently moved into a brand-new facility in Dromintree, UK.

Beyond his many accomplishments and milestones, Keith's dedication to TriMark's strategy, mission, and vision was matched only by his care and friendship for those around him. While we will greatly miss his vision, wisdom, commitment, leadership, and inspiration, we celebrate the incredible legacy he leaves behind. It has been an honor to have him as an integral part of TriMark Corporation—a journey spanning 25 years

Thank You Keith!
